Under the Data Protection Act I need to advise what will happen to the personal information you provide. Specialist Hub shall use it to obtain soft credit reference agency searches, and underwriting and processing your finance application. It will be kept on their computer systems and files. The information given may be recorded with one or more credit reference agencies, and used by Specialist Hub, their lenders or other companies for making credit decisions about you and other members of your household, for tracing debtors, for controlling fraud and money-laundering.											
(ONLY READ IF MORE THAN 1 APPLICANT) You are disclosing information about a joint applicant, and you are confirming you are entitled to do so. An 'association' between joint applicants and between you and anyone you tell us is your financial partner will be created at the Credit Reference Agencies. This will link your financial records, each of which will be taken into account in all future applications by either or both of you until one of you successfully files a disassociation at the Credit Reference Agencies.											
May we have your permission for the credit search and the storage of your personal information?

## What happens next?

There are three main aspects to a secured loan application that we need to know before we can provide an accurate quotation.

- 1. The EQUITY available in the security property. It is therefore very important you provide an accurate estimation of the property value, together with details of the type of property and the correct mortgage balance.
- 2. The INCOME available after deducting the monthly mortgage repayment, unsecured credit that is not being repaid from the advance and monthly living expenses. Generally all of our lenders' income calculations are more generous than would be available with a remortgage. If possible, try to obtain copies of a recent payslip/SA302/tax overview or alternatively ask the customer to take a picture using their smart phone. This can take days off the amount of time it takes to process the application.
- 3. The CREDIT SEARCH result and with lenders that offer the lowest rates, the Equifax credit score. Please note that we initially complete a soft credit search that does not leave a footprint on the customer's credit file and does not affect their credit rating. A Full Application Search is only carried out just prior to loan completion and we are one of very few companies with direct access to credit searches to provide an immediate decision.

If you want us to provide a quotation before we have full information on all three of these requirements, we will not guarantee its accuracy.

As with all financial services products offered to consumers, there is a great deal of compliance we have to go through with each and every customer. We ensure we Treat Customers Fairly by providing clear and transparent information regarding the different options available, interest rates, monthly repayments, fees, costs, redemption penalties and the customer's rights after loan completion. We also ensure they are aware, both verbally and in writing, of all important information that all customers must know when taking a second charge.

To do this we have to speak to all borrowers and therefore do not offer a packaged only service, as our lenders hold us liable for anything that goes wrong prior to the loan completing. If you wish to package the loan yourself and provide the advice to the customer, we have an alternative system under another brand.
